

The CLA Coupé and Shooting Brake

Mercedes-Benz

Rock. Star.

Spotlight on. The excitement is building. It's nearly time for the CLA Coupé and CLA Shooting Brake to make their big entrance. The latest trendy neighbourhoods are turned into a stage – quiet side streets become the backstage area. Get ready for an exclusive "meet & greet" with the most thrilling vehicles in their class.

ROCKS IN EVERY FORMAT.

Explore the CLA Coupé and the CLA Shooting Brake on your iPad®. The Mercedes-Benz brochure app, with a host of additional content, is available free of charge from the iTunes Store®.

The rock star generation: few have more followers. Hardly surprising, because the sporty styling has been even further honed. There are now even more opportunities for networking. The performance on the road is virtuoso – courtesy of engines that as powerful as they are efficient, DYNAMIC SELECT (availability dependent on model) and an optionally available suspension with adaptive damping adjustment.

Bad boy

in good shape.

A selfie with the CLA Coupé is in particularly high demand. The bumper with its front apron and lower trim element in silver, black or chrome, plus the diamond radiator grille, just have to be in the picture too. 45.7 cm (18-inch) light-alloy wheels in a wide range of designs get even more Likes.

The CLA Coupé wouldn't dream of fleeing from the paparazzi. Indeed, why should it? Its avant-garde design ensures that it sets standards. No one can miss that taut coupé silhouette and the muscular rear end with its integrated tailpipe trims and optional LED tail lights. But the CLA makes sure that others share the limelight: with its optionally available LED High Performance headlamps.

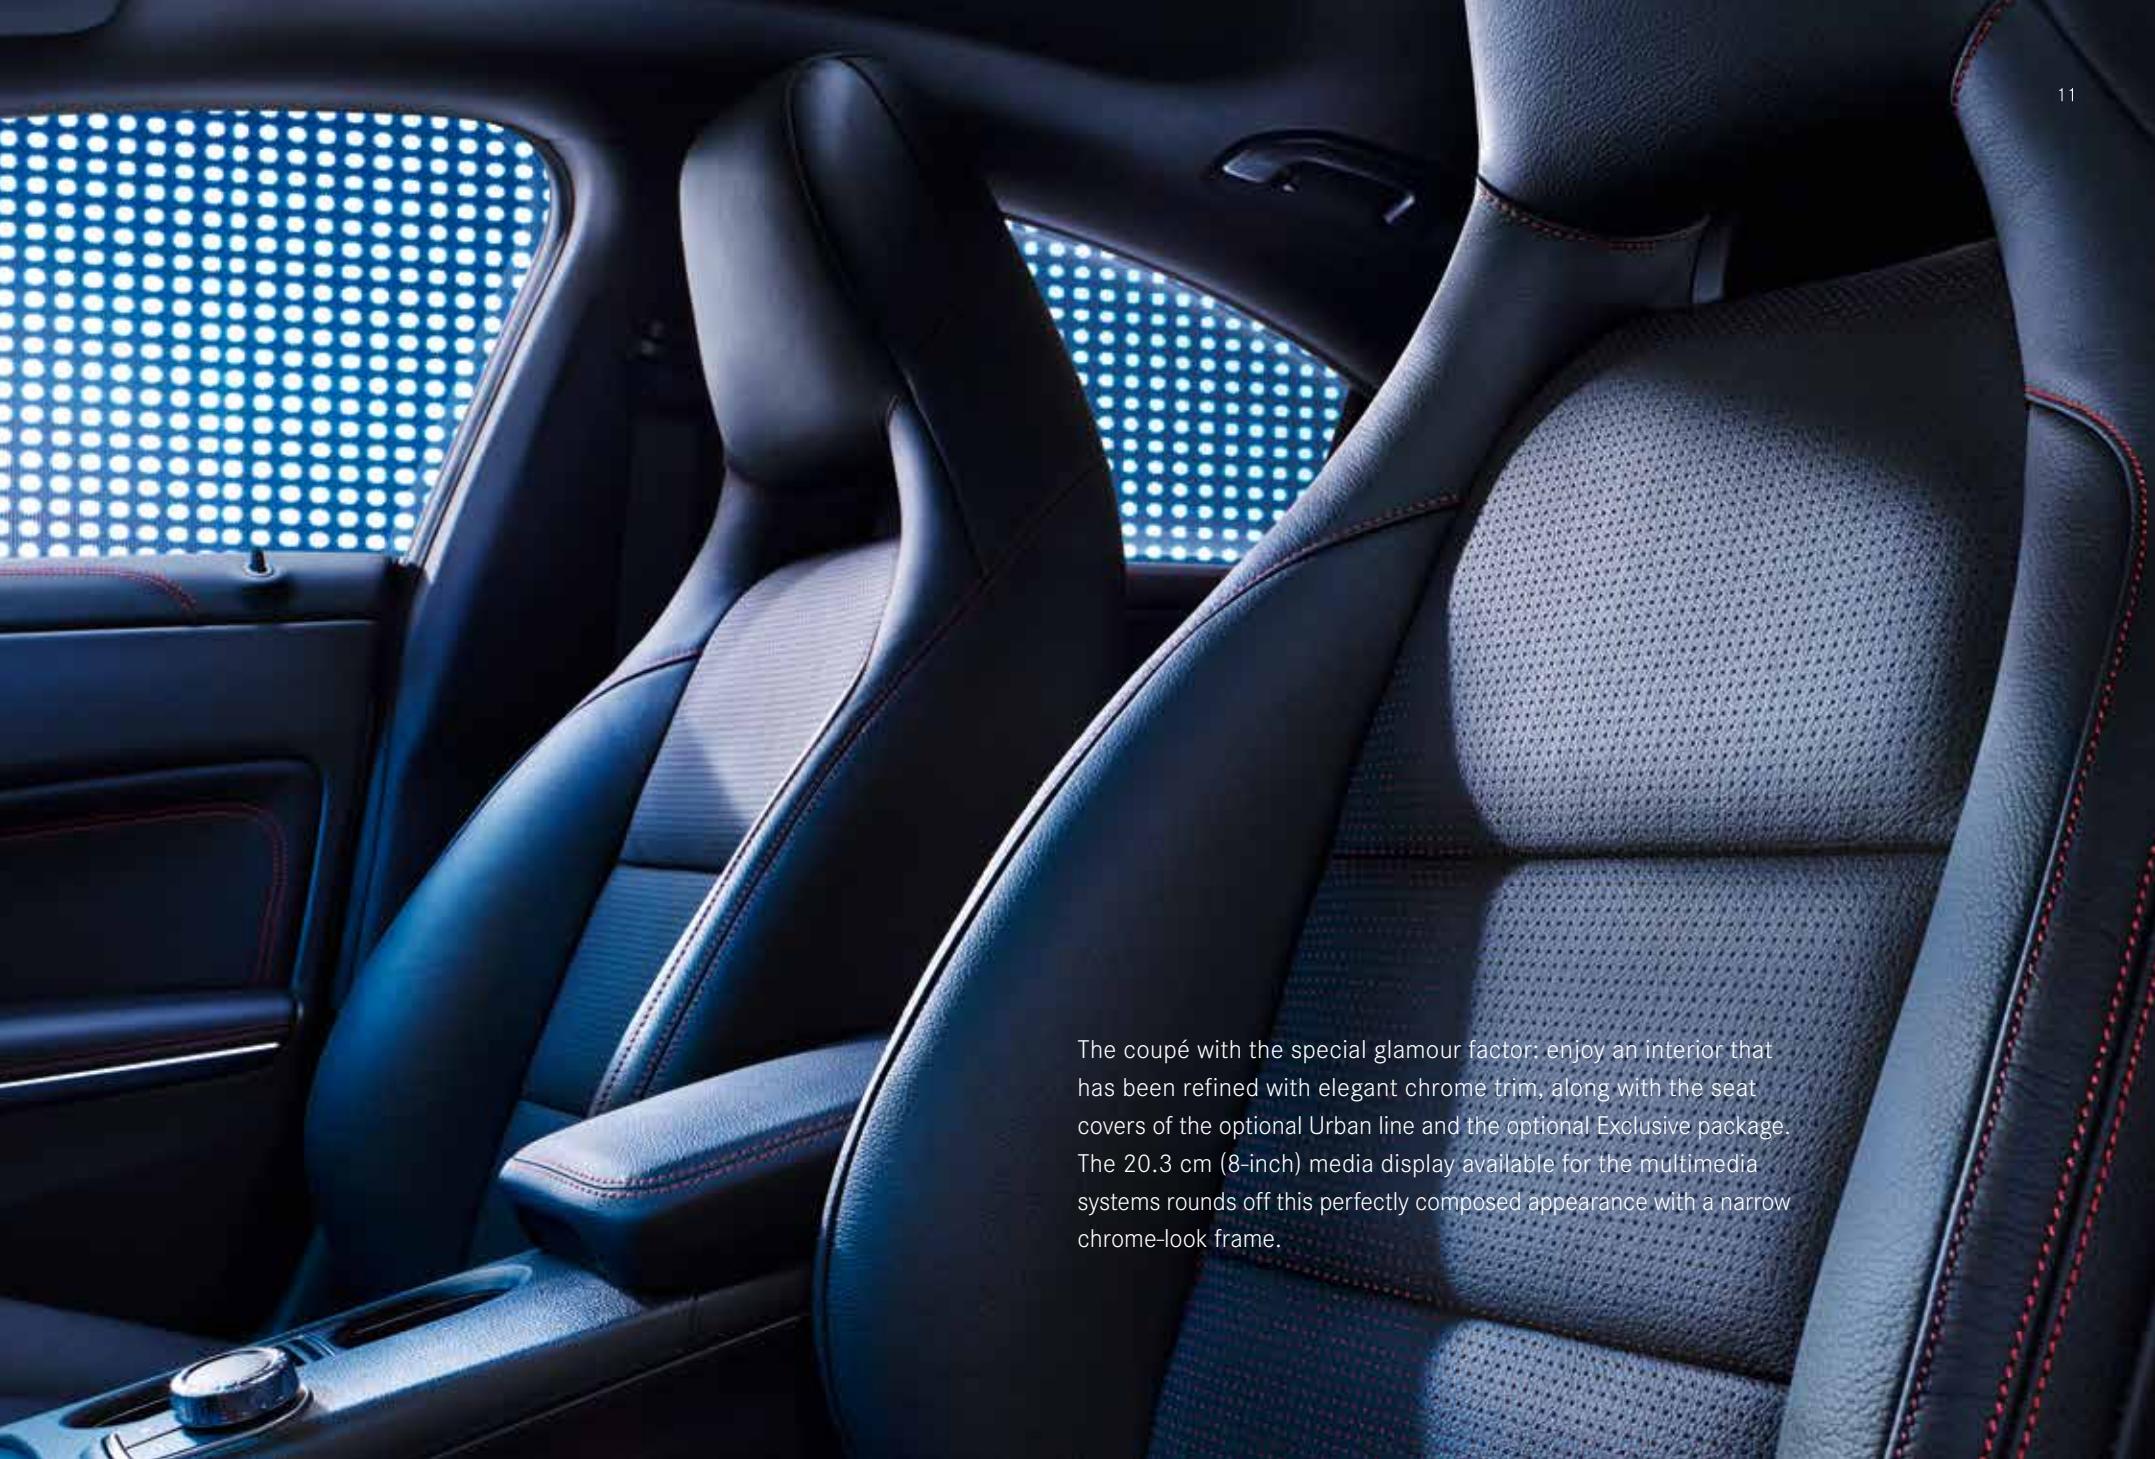

Love & pace.

What a spectacular show! Use DYNAMIC SELECT (availability dependent on model) to set the drive program to "Sport" and make sure your seat belt is securely fastened. Ahead of you lies not just a journey from A to B. Follow your own rhythm alone through the curves. The stiffer tuning of the suspension with adaptive damping adjustment, available as an option, allows a significantly more agile style of driving.

The coupé with the special glamour factor: enjoy an interior that has been refined with elegant chrome trim, along with the seat covers of the optional Urban line and the optional Exclusive package. The 20.3 cm (8-inch) media display available for the multimedia systems rounds off this perfectly composed appearance with a narrow chrome-look frame.

More
heartbeats
per minute.

Access all areas.

The CLA Shooting Brake is always the focus of attention, even off the big stage. Courtesy of its standard-specification diamond radiator grille, its bumper with trim strip and its distinctively styled front apron, all in conjunction with the vehicle colour cavansite blue. You're really keen to take a look behind the scenes? HANDS-FREE ACCESS is an optional extra that enables fully automatic opening and closing of the tailgate on the CLA Shooting Brake. In conjunction with the optional KEYLESS-GO Convenience package, all it takes is a kicking motion underneath the rear bumper.

Don't drive.

Perform.

The performance of the CLA is sure to earn standing ovations all the way along the racing line. Even Mother Nature joins in with the applause, thanks to the eco-friendlier BlueEFFICIENCY Edition model.

Get as close as possible to the CLA. With the optionally available Smartphone Integration package, including Apple CarPlay™ and Android Auto, you can link directly to your vehicle. Explore selected apps from your smartphone, your music library and so much more, in the CLA. Welcome to the VIP area.

Security service.

Innovative assistance systems ensure your safety at all times. The optionally available Distance Pilot DISTRONIC, for example, automatically maintains a safe distance from the vehicle ahead. ATTENTION ASSIST is able to detect typical signs of fatigue and to warn the driver of an impending microsleep. The reassuring side of the CLA also becomes evident when manoeuvring into or out of a parking space: the dynamic guide lines of the optional reversing camera provide valuable help.

A dark blue Mercedes-Benz CLS-Class is shown from a rear three-quarter perspective, driving towards the right. The car is set against a dark, blurred background of a city skyline at night, with bright lights reflecting off the wet asphalt. The license plate on the car reads "SL 1172".

Sexiest cars
alive.

Mercedes-Benz Intelligent Drive - pointing the way to accident-free and autonomous driving.

Mercedes-Benz is the first automotive manufacturer worldwide to have developed an integral safety concept, with the aim of safe driving, responding in an appropriate manner to hazards, avoiding accidents and mitigating the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

Mercedes-Benz Intelligent Drive forms part of this integral safety concept. It makes your Mercedes one of the most intelligent automobiles in the world – an “intelligent partner”. The Mercedes-Benz Intelligent Drive assistance systems are able to recognise hazards, provide timely warnings and even intervene autonomously when necessary – by performing braking manoeuvres, for example. In this way, accidents can be prevented or the severity of accidents can be significantly reduced. In order to protect passengers as necessary in case of danger, additional protective features such as PRE-SAFE® are activated as anticipatory measures. These features vary according to the model concerned.

Many Mercedes-Benz vehicles already offer the option of a Driving Assistance package. The key functions of this package include partially automated driving on motorways, on country roads and in built-up areas. The Driving Assistance package also lends support when changing lane on multi-lane roads, for example during overtaking. This relieves the driver's workload, as in normal driving they no longer need to brake or accelerate. The driver also receives substantial support with steering – even in bends.

Never before have safety, comfort and measures to reduce the strain on the driver been combined so effectively. This intelligent and pioneering interplay of sensors and safety and assistance systems represents a milestone on the road to autonomous and accident-free driving. And a fascinating new experience into the bargain.

please go to www.mercedes-benz-intelligent-drive.com

Our world in your hands.

www.mercedes.me – it's all about you. Discover a world of fascinating services, products and innovations that will simplify and enrich your life. Coming straight to you in digital form. And turning our world into your world.

Life can be so fascinating when you're fully connected.

All our connectivity and mobility services plus a host of other fascinating features – all in one place and exclusively for you. That's Mercedes me. Register free of charge today and make the world of Mercedes-Benz your very own at your convenience – on your PC or laptop or in mobile mode via tablet, smartphone or smartwatch. And because your life is forever changing, our services are also continually evolving. Join us now at: www.mercedes.me/welcome

Looking for individual inspiration in real life, too? The Mercedes me Stores are a fascinating phenomenon worldwide – in Beijing, Moscow and Hamburg, for example.

Mercedes me connect connects you with your vehicle – and your vehicle with the whole world. A comprehensive range of convenient connectivity services relating to all areas of your vehicle supports you, ensuring greater safety, closer contact and an even more fascinating driving experience. It's reassuring to stay connected all the time while you're on the move. Mercedes me connect includes Standard Services, which are able to provide you with automatic support in the event of a breakdown or an accident, as well as Remote Online Services – the option enabling vehicle settings to be carried out by smartphone – and lots more besides.

Mercedes me inspire offers special brand experiences and an opportunity to engage in an inspiring dialogue. We aim to share our ideas with you and we would like to know your ideas and wishes. So that we can always offer you the best solutions. A community is available to this end, and you will also find a growing range of offerings and experiences which go beyond the traditional vehicle-related topics – from areas such as events, travel and lifestyle.

Mercedes me move offers access to intelligent mobility solutions: car2go is the pioneer and global market leader in free-floating car sharing, the moovel mobility app pools the offerings from various mobility providers to find the ideal route from A to B. With the mytaxi app you can order a taxi, track its approach live and pay for your journey in a convenient manner. Mercedes-Benz Rent offers vehicles to suit all occasions for short- or long-term rental from an authorised Mercedes-Benz dealer near you. Blacklane enables you to book a chauffeur-driven limousine, FlixBus offers inexpensive, comfortable and environment-friendly trips on long-distance coaches.

Mercedes me assist makes easy work of organising maintenance for your vehicle, providing a convenient online means of locating a Mercedes-Benz dealer in your neighbourhood and arranging a service appointment. The digital service report keeps you up to date on performed service work. The report can be made available to you online just one day after a service. In addition to the current service report, you can also view your vehicle's complete service history and service intervals, and you can print this information out if you so wish.

Mercedes me finance offers you various routes to your vehicle of choice. Mercedes-Benz Bank/Mercedes-Benz Financial Services finds the ideal leasing, financing and insurance solution together with you – tailored to your needs. Our leasing products enable you to drive the latest models at all times while enjoying maximum flexibility, as you pay not for acquisition of the vehicle, but only for its use. You also benefit from attractive monthly instalments. Our financing arrangements enable you to pay for your new Mercedes-Benz in a way that suits your personal budget. You can tailor your monthly instalments to your needs by deciding on an appropriate down-payment and term for your contract. Our individual insurance solutions offer reliable protection for your budget and your vehicle on attractive terms. Your existing financial contracts can be managed conveniently online.¹

¹ Depending on market availability.

Our service: the perfect fit for your Mercedes.

Beyond the car itself, you also acquire something priceless – an exclusive partnership with Mercedes-Benz. For you, this means safety, independence and motoring free of any worries. In other words: the reassuring feeling of driving a Mercedes.

The best for your Mercedes. No-one knows your Mercedes better than our experienced specialists at the Mercedes-Benz workshops. The comprehensive range of services and the high standard of quality ensure that your vehicle is in top condition. We use proven Mercedes-Benz GenuineParts and special tools to this end.

The best for you. Motoring free of any worries right from the word go: with the tailor-made Mercedes-Benz Service Contracts. These offer you the benefits of a reliable basis for long-term planning, permanent control over costs, fixed monthly rates and cost transparency. Plus ideal protection from additional workshop costs.

The best for your mobility. The Mercedes-Benz Mobilo¹ mobility solution provides for motoring free of any worries throughout Europe – covering breakdowns, accidents, minor mishaps and vandalism. The benefits offered by Mobilo include on-the-spot assistance, a replacement vehicle, towing and overnight hotel accommodation, for example. Mobilo comes free of charge for the first two years after initial registration and can subsequently be renewed each time the vehicle is serviced by an authorised service partner, for a period of up to 30 years in all. Whenever you need assistance, you can reach us free of charge throughout Europe on 00800 1 777 7777².

◀ FIND OUT MORE

For the full information on Mercedes-Benz Service Contracts, go to www.mercedes-benz.com – or ask your authorised Mercedes-Benz dealer to draw up an individual offer for you.

¹ Our general terms and conditions apply. The period of validity is extended after each service carried out by an authorised Mercedes-Benz service partner until the due date for the next service – up to a maximum of 30 years after initial registration. ² Roaming charges may apply when calling from abroad.

What would motorsport be without Mercedes-Benz?

The first vehicle to ever win an automobile race was powered by a Daimler engine. The first Mercedes was a racing car. The Silver Arrows – a true legend. Mercedes-Benz has a long tradition of involvement with the world of sport. Motorsport shapes the brand and every vehicle bearing the Mercedes star to this day. Discover the brand's unique history first-hand: at the Mercedes-Benz Museum in Stuttgart.

FIND OUT MORE

Discover just what has been moving the world for over 130 years and take a journey through time as well as through the history of the automobile at the Mercedes-Benz Museum. More than 1500 exhibits await you on 16,500 m² of floorspace, including unique gems such as the oldest surviving Mercedes from 1902 or the legendary gull-wing models. Welcome to a place of innovation:

What would Mercedes-Benz be without motorsport?

3 June 1934 marked the beginning of the Silver Arrows legend in the International Eifel Race at the Nürburgring. Today this legend is more alive than ever: in 2016 the Silver Arrows works team Mercedes-AMG Petronas Motorsport won the Formula 1 constructors' and drivers' titles for the third year in a row, making history by winning 19 of the 21 Grand Prix races. In a spectacular finale in the desert city of Abu Dhabi, Nico Rosberg secured his first world championship title in his Mercedes-Benz F1 W07 Hybrid. The value of these successes extends way beyond the race track: every mile raced advances development in fields such as lightweight materials and hybrid technology for series production.

Mercedes-AMG F1 W08 EQ Power+, 2017 season.

Famous for economy and driving pleasure.

Hit potential: the efficient diesel engines.

The **4-cylinder diesel powerplants** are frugal in terms of fuel consumption, emissions and noise level, yet respond directly even in the lower engine-speed range. There is a choice of three power categories, ranging from 80 to 130 kW. And of course the CLA 180 d, the CLA 200 d and the CLA 220 d all meet the requirements of the Euro 6 emission class. Featuring as they do fourth-generation common rail diesel technology, the engines have an injection pressure that has been increased to 2000 bar (CLA 180 d 1600 bar), optimised combustion chambers plus precise solenoid valve injectors (CLA 180 d piezo injectors). A high ignition pressure and turbochargers with variable turbine geometry ensure a smooth and assured torque curve.

An engineering feat in their own right: the petrol engines.

The **4-cylinder petrol engines**, as found for example in the CLA 180 Coupé BlueEFFICIENCY Edition, with direct petrol injection, variable valve control and turbocharging, provide sterling service – while also meeting the requirements of the Euro 6 emission class. The combination of the third-generation Mercedes-Benz high-pressure direct injection system with precise piezo injectors and the enhanced spray-guided combustion process facilitates

virtually total combustion and thus allows the fuel to be used particularly efficiently. The variable valve control results in an optimum cylinder charge level which has a beneficial effect on fuel consumption, as do the lower weight, reduced internal friction and ancillaries controlled on an on-demand basis. Turbocharging makes for enhanced responsiveness and higher torque in every engine speed range.

Frugal on fuel: thanks to the ECO start/stop function.

Both the diesel and the petrol engines feature an **ECO start/stop function** that switches off the engine temporarily when the vehicle is stationary. A more efficient driving style can be achieved with the help of the **standard-fit ECO display**, now with improved display in the instrument cluster, which indicates how economically the vehicle is being driven. This information can be used to help the driver adopt a driving style which provides for optimum fuel consumption in the current driving situation.

FIND OUT MORE

Full technical data for the CLA Coupé and CLA Shooting Brake may be found on pages 82–83.

THE ENGINE RANGE

Diesel:

CLA 180 d with an output of 80 kW (109 hp) and a peak torque of 260 Nm

CLA 200 d with an output of 100 kW (136 hp) and a peak torque of 300 Nm

CLA 200 d 4MATIC with an output of 100 kW (136 hp) and a peak torque of 300 Nm

CLA 220 d with an output of 130 kW (177 hp) and a peak torque of 350 Nm

CLA 220 d 4MATIC with an output of 130 kW (177 hp) and a peak torque of 350 Nm

Petrol:

CLA 180 BlueEFFICIENCY Edition with an output of 90 kW (122 hp) and a peak torque of 200 Nm (CLA Coupé only)

CLA 180 with an output of 90 kW (122 hp) and a peak torque of 200 Nm

CLA 200 with an output of 115 kW (156 hp) and a peak torque of 250 Nm

CLA 220 4MATIC with an output of 135 kW (184 hp) and a peak torque of 300 Nm

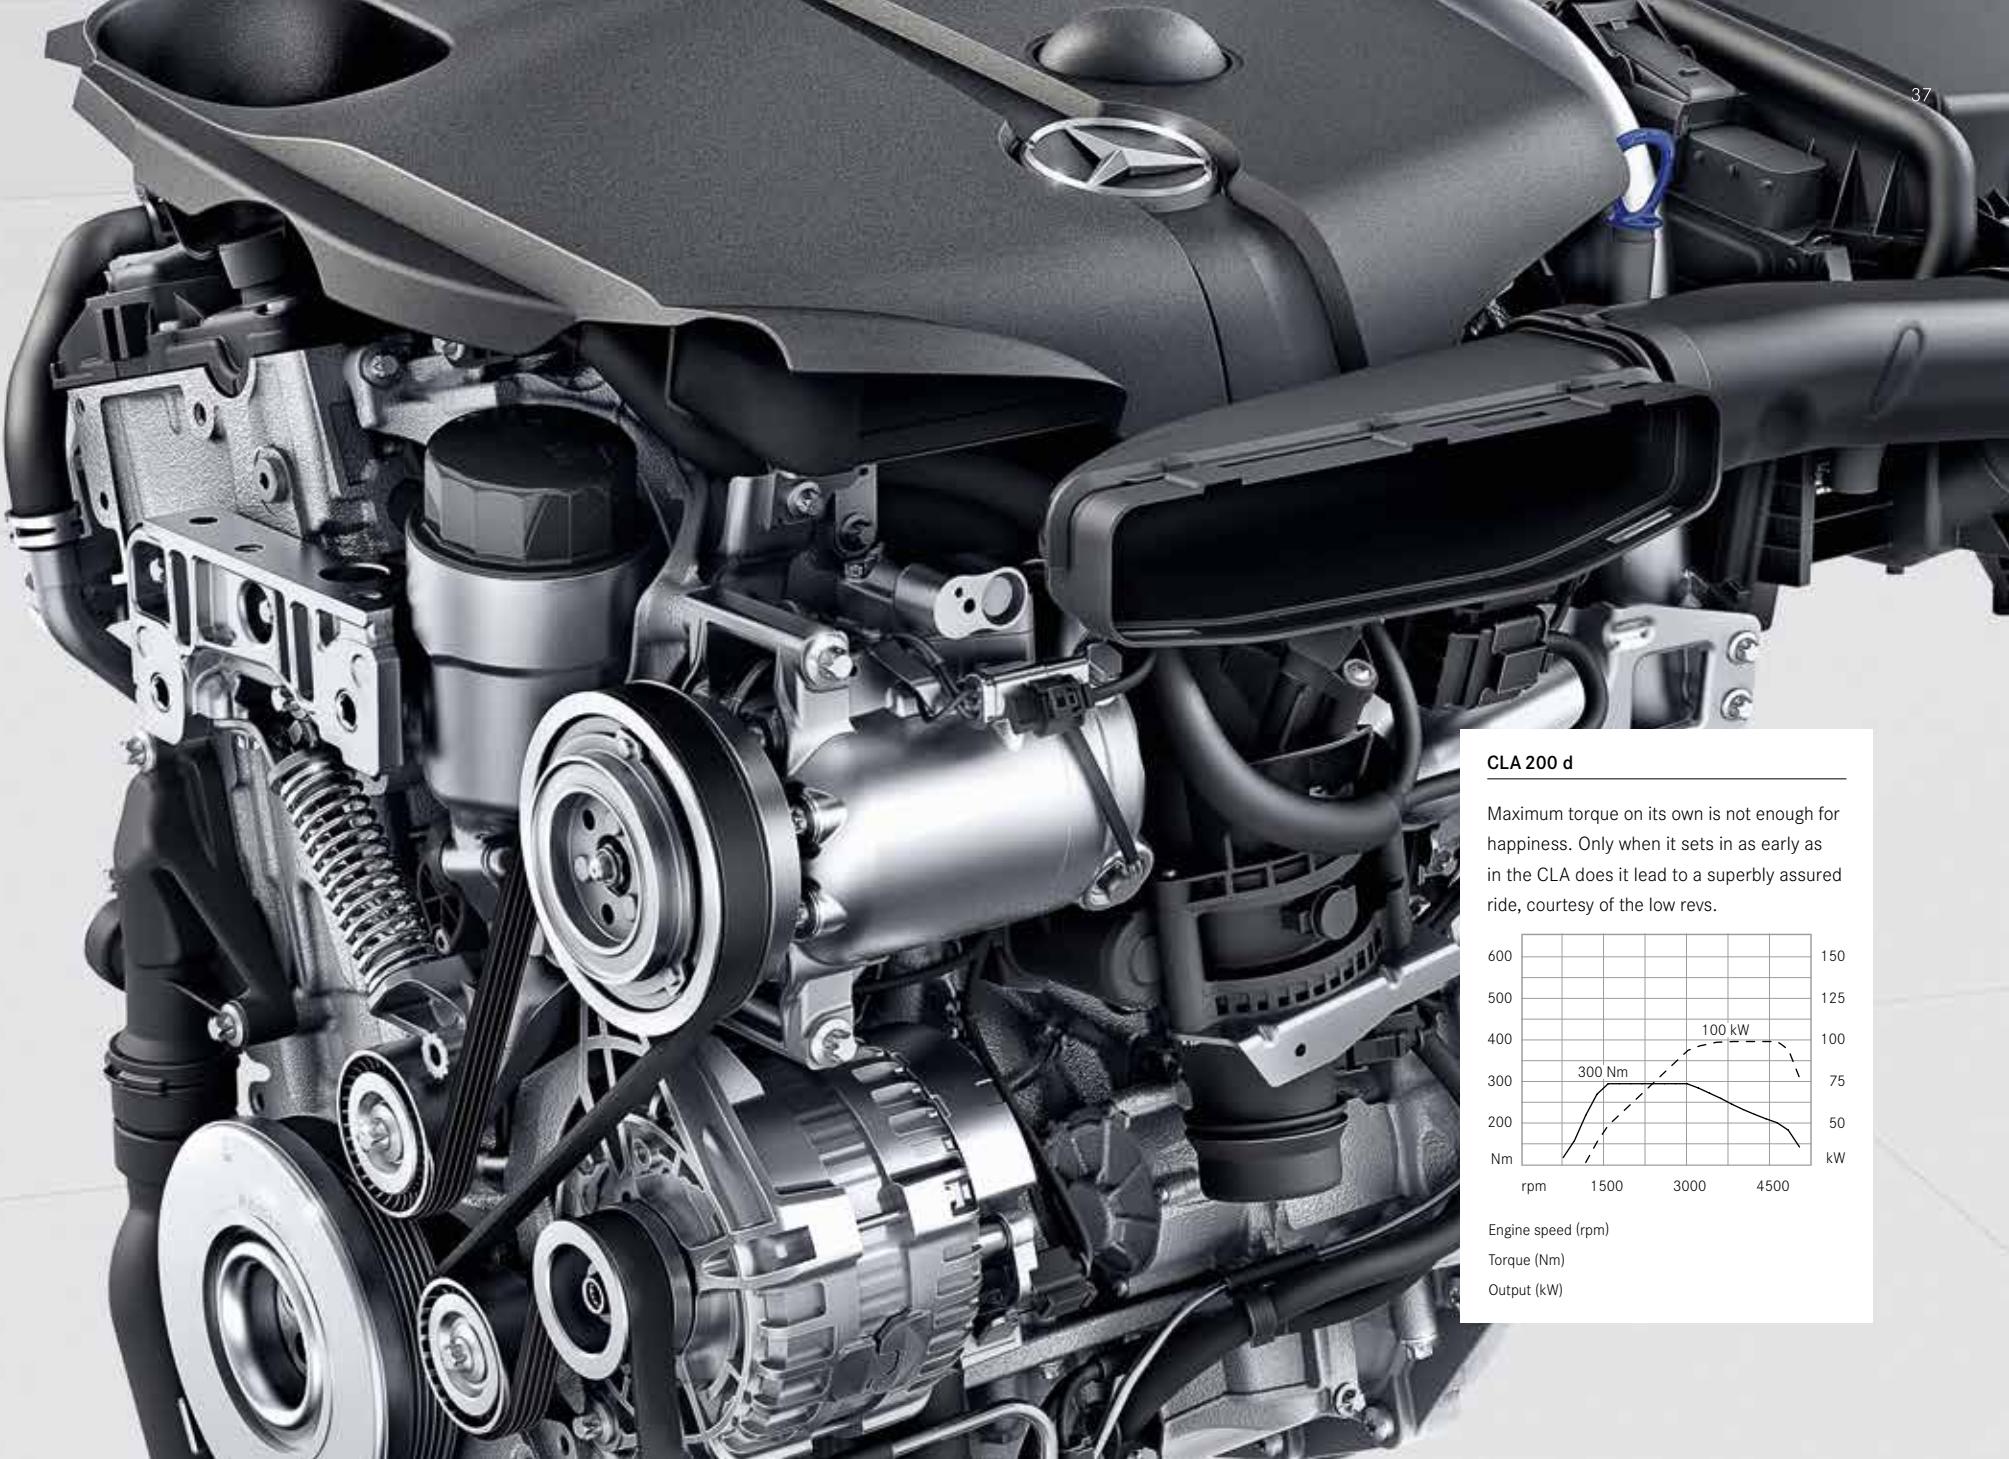

CLA 250 with an output of 155 kW (211 hp) and a peak torque of 350 Nm

CLA 250 4MATIC with an output of 155 kW (211 hp) and a peak torque of 350 Nm

CLA 250 Sport with an output of 160 kW (218 hp) and a peak torque of 350 Nm (CLA Coupé only)

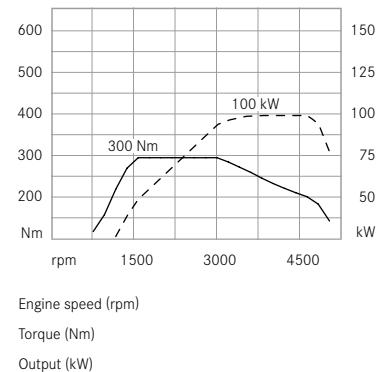

CLA 250 Sport 4MATIC with an output of 160 kW (218 hp) and a peak torque of 350 Nm

Mercedes-AMG CLA 45 4MATIC with an output of 280 kW (381 hp) and a peak torque of 475 Nm

CLA 200 d

Maximum torque on its own is not enough for happiness. Only when it sets in as early as in the CLA does it lead to a superbly assured ride, courtesy of the low revs.

From “piano” to “forte”: the 7G-DCT.

The **7G-DCT dual clutch transmission** combines more than simply seven gears. Namely the comfort of a 7-speed automatic transmission with the dynamic handling of a manual gearbox. The 7G-DCT consists of two sub-transmissions, one of which transfers the tractive power to the wheels while the other is already preselecting the next gear. This leads to fast, smooth gear changing without any interruptions in tractive power and results in improved acceleration.

The shift characteristics can be preset from fuel-saving to sporty via the “Economy”, “Sport” and “Manual” drive programs. Kick-down in “Sport” mode causes the 7G-DCT to skip individual speeds, so enabling faster sprints. Sporty-minded drivers can change gears manually via the steering-wheel gearshift paddles.

MANUAL TRANSMISSIONS

The 6-speed manual transmission is perfectly tuned to the respective engine variant and provides extreme ease of shifting, precise shift travel and a smooth gear change sequence. It also promotes fuel-efficient and comfortable motoring with low engine speeds.

Ready for a breathtaking appearance.

The **all-wheel drive system 4MATIC** (see illustration) transfers the forward thrust of the engine and transmission to the road to perfect effect, courtesy of continuously variable torque distribution for the front axle (between 100% and 50%) and rear axle (between 0% and 50%) via an electrohydraulically actuated multiplate clutch integrated into the rear axle gear unit. As a result the all-wheel drive system is able to adapt flexibly to the driving conditions.

It is supported by suspensions with varying configurations – from sportily comfortable to very sporty. The **suspension with adaptive damping adjustment**, available as an option, enables drivers to select between Comfort and Sport modes via the **DYNAMIC SELECT** switch. As the damping system is infinitely variable and the set-up is adjusted for each individual wheel, driving safety and ride quality are also improved.

THE SUSPENSION OPTIONS AT A GLANCE

The **comfort suspension** reduces pitching and rolling motions, so providing a good balance between comfort and dynamism.

The **suspension with adaptive damping adjustment** allows the choice between a more comfort-oriented and a sportily stiff configuration of the damping.

The **sports suspension** (available in conjunction with the AMG Line) supports a sportier driving style.

The **Sports Direct-Steer** system makes more agile vehicle reactions possible and improves directional stability during straight-line driving.

Always knows where the action is.

We have a name for innovative mobility and connectivity services: Mercedes me. Part of this new Mercedes-Benz world of experiences is **Mercedes me connect** – the networking of driver, vehicle and personal lifeworld. The Mercedes me connect Standard Services, such as the Mercedes-Benz emergency call system or Breakdown Management, ensure immediate assistance.

The **Remote Online** provision serves as a preparation for using additional, separately available Mercedes me services such as the Parked Vehicle Locator function. Remote Online is available as an option in conjunction with the standard-fit Audio 20 USB multimedia system, and a core element of the optional COMAND Online multimedia system, which opens up the whole world of Mercedes me connect to you – including a browser, navigation with Live Traffic Information (free of charge for three years providing registered in the Mercedes me connect Store within the three-month registration period) and numerous apps. The high-resolution colour display appears on a 20.3 cm (8-inch) screen (optional for Audio 20 USB / Audio 20 CD). The Mercedes me connect services are only enabled at your express request, with the exception of the automatically activated Mercedes-Benz emergency call system.

◀ FIND OUT MORE

All information at www.mercedes.me/de

Setting the pace for optimum networking.

With the optional **Smartphone Integration package**, it is possible to integrate either iPhones® or Android smartphones into the car using Apple CarPlay™ or Android Auto respectively and to operate them via voice control – certain functions can also be operated via the vehicle controls. The connection to the smartphone allows access to the latest software and data such as navigation and traffic information, media (streaming media and IP radio) as well as contact data, telephony/FaceTime and messaging.

JUST AS SMART

With the optional **Universal Telephony package**, a universal smartphone cradle in the armrest allows the connection of smartphones to the vehicle's hands-free telephone system. The use of the LTE-compatible exterior aerial ensures optimum reception and transmission. In addition, the battery can be charged.

◀ FIND OUT MORE

The **Digital Owner's Manual** can be used to call up information directly on the media display in the vehicle. And you can also explore the CLA Coupé and the CLA Shooting Brake interactively on the national Mercedes-Benz website for your country. Also available as an app for smartphone or tablet PC.

En route to the open air.

With its large glazed area, the optional electric **panoramic sliding sunroof** ensures a particularly bright and welcoming ambience. An electric sunblind provides shade in strong sunlight. In the raised position, the glass roof automatically adjusts to three tilt positions to suit the current vehicle speed. The glass roof is lowered at high speeds, reducing the noise level and air circulation in the interior. Conversely, it raises itself again at low speeds.

FOR A PERFECT CLIMATE WHEN THE ROOF IS CLOSED

Before a journey, the vehicle interior can be heated or ventilated by the optional **stationary heater** – either by timer or with the remote control. In winter this eliminates the time-consuming task of scraping ice from the windows.

The optional **THERMOTRONIC** automatic climate control system offers two separate climate zones and hence a sense of individual wellbeing on board. Driver and front passenger are able to control the temperature independently of one another. The climate is maintained at the desired level automatically with the aid of sensors.

The light show.

Come inside and enjoy – the pleasant, indirect light of the optional **ambient lighting**, in twelve different colours, imbues the interior with a uniquely comfortable atmosphere. It accentuates, in particular at night, the contours and high-quality appeal of the interior, conveying a feeling of security through a generous sense of space and by reducing dazzle from oncoming traffic. As soon as you open the car door, you will feel the mood-enhancing effect of the discreet lighting. A range of twelve different colours and five dimming levels are available to create an individual lighting mood. The ambient lighting features full LED technology, and is conveniently controlled via the instrument cluster.

THE ELEMENTS OF THE AMBIENT LIGHTING

Door centre panel illumination by means of LED lamp units in the door pulls

Door handle recess illumination

Centre console illumination by means of lighting elements beneath the inside rearview mirror

In conjunction with sports seats, illumination of the opening in the head restraints at both front and rear

Footwell lighting in front and rear

The VIP seats.

The standard **sports seats** at the front (see illustration) are characterised by their particularly good lateral support. They can be identified by their high seat backs with triple horizontal fluting and a characteristic opening between the backrest and the integral head restraints.

The optionally available **luxury seats** with triple horizontal fluting and a wider shoulder area can be ordered in ARTICO man-made leather in either black or crystal grey for standard-specification vehicles as well as for those with the Urban equipment line. An extra 42 mm of headroom in the CLA Shooting Brake, by comparison with the CLA Coupé, adds to the comfort in the rear seats.

FOR ADDED SEATING COMFORT

4-way lumbar support for driver and front passenger (optional): a lumbar adjustment function allows the curvature of the front seats to be individually set, so improving both seating comfort and the ergonomics.

The **Seat Comfort package** is an added extra that can improve seating comfort, in particular over long distances, by equipping the driver's and front passenger seat with even more possibilities for ergonomic individualisation.

A comfortable and individual setting of the seating position is made possible by the optionally available **electric adjustment of driver's and front passenger seat**.

Part of the optional Seat Comfort package, the **seat cushion depth adjustment** enhances travelling comfort with a seat pad that extends by 60 mm to support the upper leg.

The backstage area.

The **load compartment** of the CLA Shooting Brake is notable as the widest in its class, with a capacity of 495 litres (rises to 595 litres in cargo position), and its remarkable depth, variability and functionality. An integrated retractable cover pulls out over the load to provide protection. A separate dividing net between the load area and the passenger compartment, available as an option, protects the vehicle's occupants during the journey.

The perceived quality of the load area can be enhanced further with the three **stylish aluminium rails** on the load compartment floor. Thanks to rubber inserts they ensure improved slip-resistance when transporting loads.

PLENTY OF SPACE FOR EXTRAS

Better order, improved safety and additional stowage possibilities in the load compartment are provided by the optional **Load Compartment package**. This comprises stowage nets, the cargo position function for the rear seat backrests (15° steeper rake), a 12 V socket and a collapsible crate underneath the load compartment floor (not in conjunction with Harman Kardon® Logic 7® surround sound system).

Effective protection against prying eyes is provided by a pull-out **load compartment cover** with practical roller mechanism.

For convenient loading and unloading of the CLA Shooting Brake, the **EASY-PACK tailgate** opens and closes electromechanically at the push of a button. In conjunction with the optional KEYLESS-GO Convenience package, contactless and fully automatic operation is also possible via a kicking motion underneath the rear bumper.

The stage outfit: As standard.

What more do you need, if you're already perfectly happy? The CLA offers a compelling proposition that includes all sorts of extras, even in the standard specification – but of course there's always more to discover.

FIND OUT MORE

As attractive as this overview may be, it only provides an initial impression. For the complete range of standard equipment please refer to the price list, which is also available for viewing online:

www.mercedes-benz.com

EXTERIOR HIGHLIGHTS

10-spoke light-alloy wheels, painted champion silver, with 205/55 R 16 tyres

10-spoke light-alloy wheels, painted titanium silver, with 225/45 R 17 tyres (in conjunction with CLA 220 d, CLA 220 d 4MATIC, CLA 250 and CLA 250 4MATIC)

Diamond radiator grille with pins in black, silver-painted louvre and chrome insert; front apron inlay in matt iridium silver

Twin-pipe exhaust system with chrome-plated tailpipe trim (in conjunction with CLA 220 d, CLA 220 d 4MATIC, CLA 250 and CLA 250 4MATIC)

Rear-apron inlay in high-gloss black (in conjunction with CLA 220 d, CLA 220 d 4MATIC, CLA 250 and CLA 250 4MATIC)

INTERIOR HIGHLIGHTS

3-spoke multifunction steering wheel with twelve function buttons

KEYLESS-GO starting function with convenience central locking system

CRUISE CONTROL with variable speed limiter

Sports seats upholstered in ARTICO man-made leather/Coari fabric with topstitching.

Matrix-look trim

Air vents with surrounds in silver chrome and cruciform nozzle in high-gloss black

High-gloss black light switch with ring in silver chrome

Door centre panels in ARTICO man-made leather with topstitching

Roof liner in grey

For added glamour: The optional extras.

There are countless ways of making a CLA Coupé or a CLA Shooting Brake your own. From small details and special touches to comfort features that until recently were still the preserve of the luxury segment. Take the time to browse – in this brochure or online.

You can also configure your very own and personal CLA via www.mercedes-benz.com

Garmin® MAP PILOT: this compact navigation module transforms the Audio 20 CD into a fully-fledged, intuitively operated navigation system. The SD card-based navigation system is operated by inserting the card into the SD card slot in the head unit.

With a screen diagonal of 20.3 cm, the **8-inch media display** resembles a sophisticated tablet PC.

With the optional **Smartphone Integration package**, it is possible to integrate either iPhones® or Android smartphones into the car using Apple CarPlay™ or Android Auto respectively and to operate them via voice control. Certain functions can also be operated via the vehicle controls. This makes safe use possible while on the move.

The **EASY-PACK tailgate** of the CLA Shooting Brake can be very easily opened and closed electromechanically at the touch of a button. To prevent the door from bumping against any objects, it can be stopped in any position and its opening angle can be restricted.

The **reversing camera** with dynamic guide lines in the media display makes parking and manoeuvring easier. It is switched on automatically when the driver selects reverse gear, and shows the driver the area behind the vehicle with dynamic guide lines on the head unit display.

The driver's and front passenger seats are electrically adjustable and feature a **Memory function**. This allows up to three settings for the front seats and outside mirrors to be saved and called up again – for added practicality when more than one driver may drive the car.

THERMOTRONIC automatic climate control with two climate zones provides individual climate control for the driver and for the front passenger. Temperature, airflow and air distribution are controlled automatically. The temperature can be regulated separately for driver and front passenger.

In addition to their distinctive visual appeal, the **LED High Performance head-lamps** boost night-time driving safety thanks to their broad light distribution, a daylight-simulating colour temperature, and low energy consumption. The tail lights feature LED technology and create a visual highlight while improving visibility.

The **ambient lighting** system available in conjunction with the Light and Sight package features twelve colours and five dimming levels with which the mood can be set in impressive style for the whole of the interior.

With twelve loudspeakers, including a woofer, and a 9-channel DSP amplifier, the 450 Watt **Harman Kardon® Logic 7® surround sound system** combines with audio systems to offer a perfect listening experience, in conjunction with COMAND Online also in DTS and Dolby Digital 5.1 format.

KEYLESS-GO enables the vehicle to be conveniently opened, started and locked – all you have to do is carry the electronic key. The **HANDS-FREE ACCESS** function allows contactless, fully automatic opening of the boot lid. Both systems form part of the KEYLESS-GO Convenience package.

The darling of the city: the Urban line.

The Urban design and equipment line enhances the vehicle's sporty character with selected exterior and interior features. The design of the moulding on the rear bumper, the diamond radiator grille with pins in high-gloss black and sports seats in an attractive upholstery design all add dynamic notes.

EXTERIOR HIGHLIGHTS

- 5-twin-spoke light-alloy wheels, painted Himalayas grey, with 225/40 R 18 tyres
- Diamond radiator grille in black
- Twin-pipe exhaust system with chrome-plated tailpipe trim
- Chrome-look inlay in front and rear apron
- Lowered comfort suspension (no-cost option: comfort suspension)

INTERIOR HIGHLIGHTS

- Seat covers in three special designs
- Sail-look trim element
- 3-spoke multifunction steering wheel in leather, with perforations in the grip area, twelve control buttons and contrasting topstitching
- Sports seats with upholstery in ARTICO man-made leather/Maringá fabric and contrasting topstitching
- Seat Comfort package, including seat cushion depth adjustment

For your street performance: The AMG Line.

The AMG Line gives the interior an even sportier appeal. From the outside, the AMG bodystyling reinforces the dynamic look of the CLA.

PURE AMG

Experience the full excitement of AMG from page 62.

EXTERIOR HIGHLIGHTS

- AMG bodystyling with front and rear apron plus side sill panels
- AMG 5-twin-spoke light-alloy wheels, painted titanium grey with a high-sheen finish, with 225/40 R 18 tyres
- Diamond radiator grille with pins in chrome, silver-painted louvre and chrome inserts
- Twin-pipe exhaust system with chrome-plated tailpipe trim
- Diffuser insert in vehicle colour with chrome trim element, in conjunction with Night package in high-gloss black
- Lowered sports suspension
- Perforated front brake discs, front brake callipers with "Mercedes-Benz" lettering

INTERIOR HIGHLIGHTS

- 3-spoke multifunction leather sports steering wheel with flattened bottom section, perforations in the grip area, twelve function keys and red contrasting topstitching
- Sports seats upholstered in ARTICO man-made leather/DINAMICA microfibre with red contrasting topstitching
- Seat Comfort package, including seat cushion depth adjustment
- Aluminium trim element with light longitudinal grain
- Air outlets with surround and cruciform nozzle in silver chrome
- Brushed stainless-steel sports pedals with rubber studs

Adding a special note: The Exclusive package.

Stylish coordination – guaranteed to please: the high-quality interior appointments of the Exclusive package fulfil very high expectations in terms of comfort, quality and design.

3-spoke multifunction sport steering wheel in leather, with perforations in the grip area and twelve function keys (flattened bottom section in conjunction with AMG Line)

Sports seats with leather upholstery and contrasting topstitching as well as perforated pads

Heated seats for driver and front passenger

Seat Comfort package

4-way lumbar support

Dashboard in ARTICO man-made leather with contrasting topstitching

Beltlines in ARTICO man-made leather with contrasting topstitching in wrap-around look

Trim element in trapezium-grain aluminium

Trim element in light longitudinal-grain aluminium (in conjunction with AMG Line)

Black roof liner (optional: grey roof liner in conjunction with black leather upholstery)

Sports pedal cluster in brushed stainless steel with rubber studs (in conjunction with AMG Line)

Cord floor mats with edging in the appointments colour

12 V socket in the rear

Convenience central locking system with summer opening/closing function for side windows and panoramic sliding sunroof (optional)

Star quality: The AMG Exclusive package.

Building on the basis of the optional AMG Line, we have put together a combination of high-quality interior elements – for the ultimate in exclusiveness, individuality and sporting flair.

Sports seats with black RED CUT leather upholstery with red contrasting topstitching

Heated seats for driver and front passenger

Seat Comfort package

4-way lumbar support

Dashboard in ARTICO man-made leather with red contrasting topstitching

Aluminium trim element with light longitudinal grain

3-spoke multifunction leather sports steering wheel with flattened bottom section, perforations in the grip area, twelve function keys and red contrast topstitching

Beltline in ARTICO man-made leather with red contrasting topstitching in wrap-around look

designo seat belts in red (in conjunction with Sport models and Mercedes-AMG CLA 45 4MATIC)

Roof liner in black

Brushed stainless-steel sports pedals with rubber studs

Cord floor mats with border in black and topstitching in red with "AMG" lettering ("SPORT" lettering in conjunction with Sport models)

For the after-show party: The Night package.

The striking black design elements of the Night package give the CLA an even sportier and more expressive look – the package encompasses trim strips in the front and rear bumpers, tinted glass, the exterior mirrors and light-alloy wheels through to the window weatherstrips.

Front and rear bumpers with trim strip in high-gloss black

Exterior mirror housings painted in high-gloss black

Dark-tinted heat-insulating glass from B-pillar to rear

Beltline trim strips and window weatherstrips in high-gloss black

Additional features of the Night package in conjunction with the Urban line:

10-spoke light-alloy wheels, painted black with a high-sheen finish, with 225/40 R 18 tyres, plus a diamond radiator grille with pins in high-gloss black and a louvre in high-gloss black with chrome insert

Additional features of the Night package in conjunction with the AMG Line:

AMG 5-twin-spoke light-alloy wheels, painted black with a high-sheen finish, with 225/40 R 18 tyres, plus a diamond radiator grille with pins in chrome and a louvre in high-gloss black with chrome insert, along with a diffuser insert in the rear apron in high-gloss black

No cover versions here: Genuine Accessories only.

Choose only Mercedes-Benz Genuine Accessories to add an even more individual touch to your CLA Coupé or CLA Shooting Brake – and be ready for whatever comes your way.

The fixed rear spoiler for the boot lid, available for the CLA Coupé, accentuates break-away edge at the tail, without appearing obtrusive. A high-quality base coat makes the paint finish in the desired colour possible.

Boot tub, shallow, in impact-resistant polypropylene with non-slip finish

Garmin® MAP PILOT upgrades the Audio 20 CD to a fully-fledged Garmin® navigation system. The navigation software and map data sets are provided on an SD memory card. Simple operation via the vehicle Controller as well as voice recognition. The (3D) map with additional navigation instructions incl. Live Traffic Information (for certain countries) appears on the media display. Software and map updates online are possible using a free download manager.

Make the star shine even brighter. Fibre-optic and LED technology are used to light up the central star in the radiator grille of your Mercedes as soon as it is unlocked via remote control, or when a door or the tailgate is opened (functionality only when the engine is switched off, not in conjunction with the Distance Pilot DISTRONIC).

CLA 250 Sport and CLA 250 Sport 4MATIC.

What a duet: experience the harmony produced by uncompromising sportiness and breathtaking exclusivity in the CLA 250 Sport¹ and the CLA 250 Sport 4MATIC. With a sporty engine sound and lowered sports suspension engineered by AMG and AMG bodystyling.

¹ CLA 250 Sport only in conjunction with CLA Coupé.

EXTERIOR HIGHLIGHTS

AMG 5-spoke light-alloy wheels, painted black with a high-sheen finish, with 235/40 R 18 tyres (for illustrations see page 58, bottom)

AMG speed-sensitive sports steering

Diamond radiator grille with pins in chrome, louvre in high-gloss black and chrome inserts

Perforated brake discs at front, red brake callipers front and rear with "Mercedes-Benz" lettering

Sportier engine, transmission and accelerator configuration

Modified ESP® configuration

Red trim on the front and rear aprons

INTERIOR HIGHLIGHTS

Sports seats upholstered in ARTICO man-made leather/DINAMICA microfibre with red contrasting topstitching

designo seat belts, red (not in conjunction with Exclusive package)

Air outlets with surround and cruciform nozzle in silver chrome

Cord floor mats with edging in black and red contrasting topstitching as well as "Sport" lettering

Another encore? The wheels.

The hunt for the perfect wheel is on. Search our extensive range of attractive options to find the wheels that best suit you and the car of your dreams.

STANDARD EQUIPMENT AND OPTIONAL EXTRAS

¹ Variant with mixed-size tyres features different rim and tyre dimensions on rear axle.

Progress. Accelerated. The Mercedes-AMG CLA 45 4MATIC Shooting Brake and Coupé.

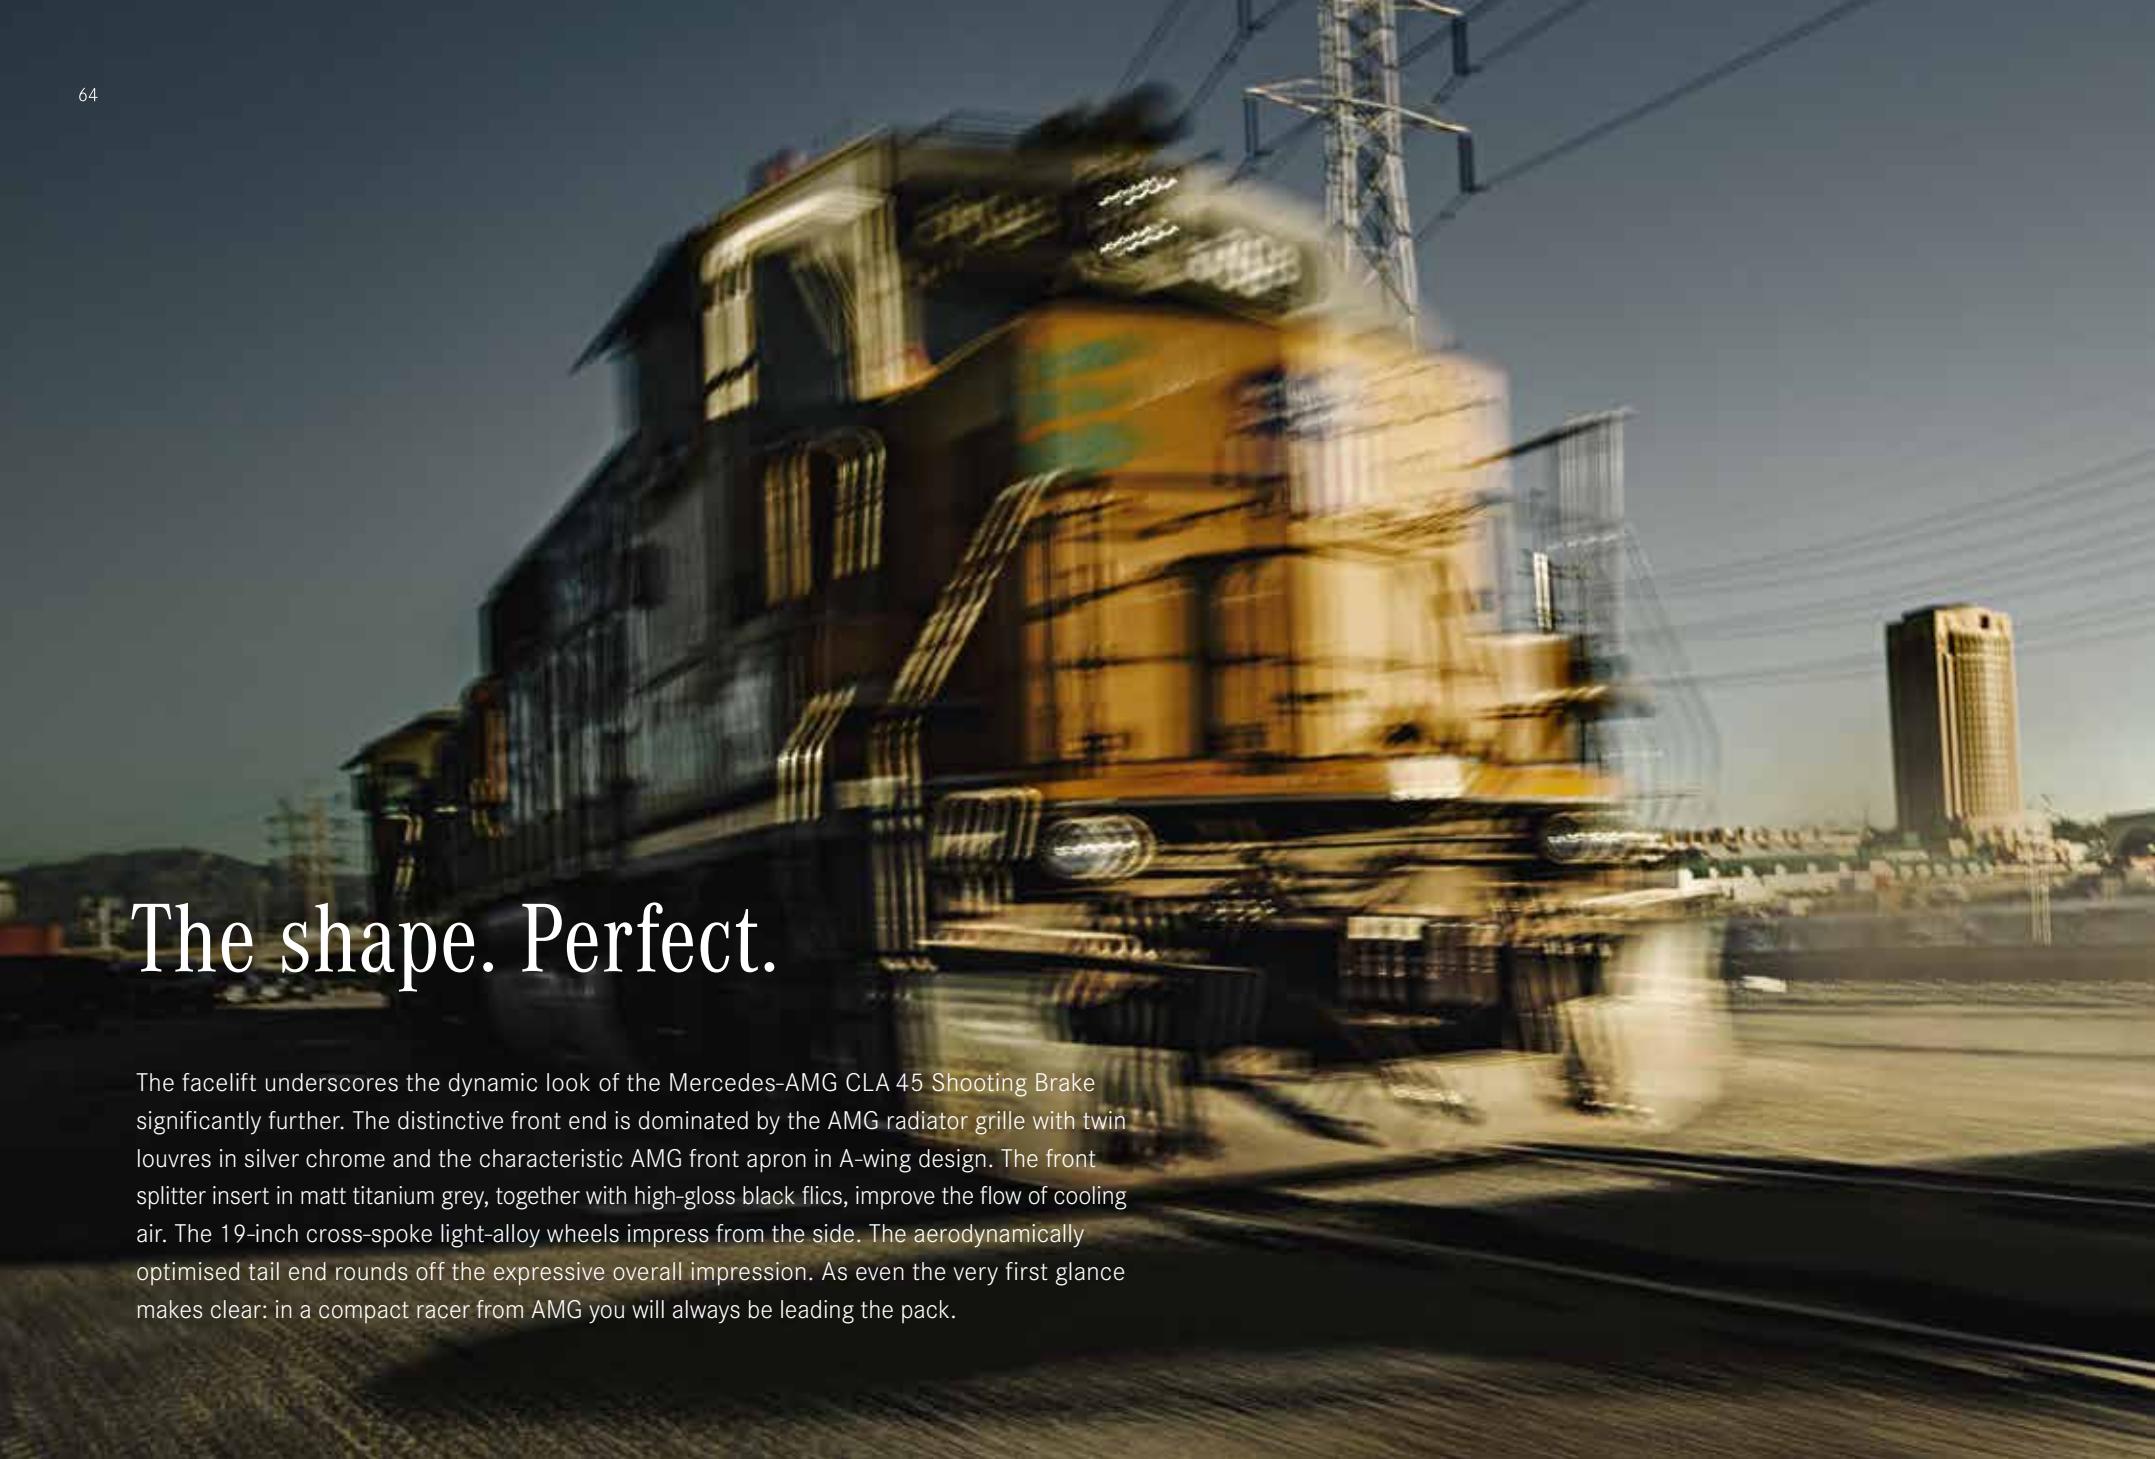

Mercedes-AMG is more than just a manufacturer of performance vehicles – AMG is a promise: the promise always to go a step further. To expect a lot and to give everything. That's how we create exceptional motor cars for exceptional people.

Built to impress. The city. The people. The asphalt.
The Mercedes-AMG CLA 45 Shooting Brake and the
Mercedes-AMG CLA 45 Coupé.

Welcome to the world of AMG.

The shape. Perfect.

The facelift underscores the dynamic look of the Mercedes-AMG CLA 45 Shooting Brake significantly further. The distinctive front end is dominated by the AMG radiator grille with twin louvres in silver chrome and the characteristic AMG front apron in A-wing design. The front splitter insert in matt titanium grey, together with high-gloss black flics, improve the flow of cooling air. The 19-inch cross-spoke light-alloy wheels impress from the side. The aerodynamically optimised tail end rounds off the expressive overall impression. As even the very first glance makes clear: in a compact racer from AMG you will always be leading the pack.

SHOOTING BRAKE

Something very special. Further refined.

Anyone settling into the AMG performance seats with their stronger contouring and integrated head restraints is met with high-quality materials and sporty elegance. The seat cushion and backrest offer even better lateral support and help to define the unique sporty look of the interior. The standard AMG E-SELECT lever and the optionally available AMG Performance steering wheel with silver-coloured aluminium shift paddles further round-off the dynamic-looking interior. All that's left to do: fasten your seat belt and full power ahead.

The drive system. Perfected.

When it comes to setting standards, too, you'll always find AMG in the fast lane. The best example for this is the 2.0-litre unit in the Mercedes-AMG CLA 45. With an output of 280 kW (381 hp), this engine's efficiency is as compelling as its performance. The NEDC consumption is just 6.9 l/100 km. A technical masterpiece, then, produced by hand according to the "One Man – One Engine" principle. In other words: true passion for racing, that you can feel all the time. Or hear – in the unmistakable sound signature of the AMG sports exhaust system.

COUPÉ

The driving dynamics. Intensified.

What is the next step for driving dynamics? The AMG DYNAMIC PLUS package in the Mercedes-AMG CLA 45 Coupé. It includes the manually controlled AMG front axle locking differential. For optimum traction in all driving situations. Also part of the package are the AMG performance steering wheel, the AMG RIDE CONTROL sports suspension with adaptive damping adjustment plus the RACE drive program. The name delivers on the promise: RACE is configured for the ultimate in dynamic handling and is the ideal choice for chasing after record times. On the race track. Not on the way to the baker's.

The urge. Driven on.

The rear end of the Mercedes-AMG CLA 45 Coupé has been discernibly refined, in a reflection of the motto “More power, less lift”. The AMG spoiler lip is responsible for a crucial improvement in the car’s aerodynamic performance. The AMG diffuser-look rear apron with four vertical fins furthermore optimises the air flow. The overall progressive character of the vehicle is also emphasised by the chrome-plated twin tailpipe finishers of the AMG sports exhaust system and the “TURBO 4MATIC” lettering on its flanks. Pure dynamism, in fact. Which pretty much sums up the Mercedes-AMG CLA 45 Coupé.

The handling. Refined.

Perfect handling calls for optimum operability. The AMG DRIVE UNIT takes care of that. It is the central command centre for the AMG SPEEDSHIFT DCT 7-speed sports transmission and the DYNAMIC SELECT drive programs, which you can change just by turning the rotary switch. The AMG high-performance braking system delivers excellent deceleration and precise metering. The AMG Aerodynamics package, comprising a larger front splitter plus additional flaps on the front apron, increases the downforce. So that you can allow the AMG light-alloy wheels unbridled freedom.

The fun of driving. Enhanced.

The development of the 3-stage Electronic Stability Program (ESP®) saw the contradiction between safety and driving enjoyment eliminated. The ESP® button allows the driver to choose between three control strategies: “ESP® ON” for a high level of safety, “ESP® SPORT HANDLING MODE” for a sportier driving style and “ESP® OFF” for driving on dedicated racetracks. In addition, the AMG RIDE CONTROL sports suspension helps to deliver the engine output better to the asphalt. Whatever happens: you can depend on your vehicle’s performance.

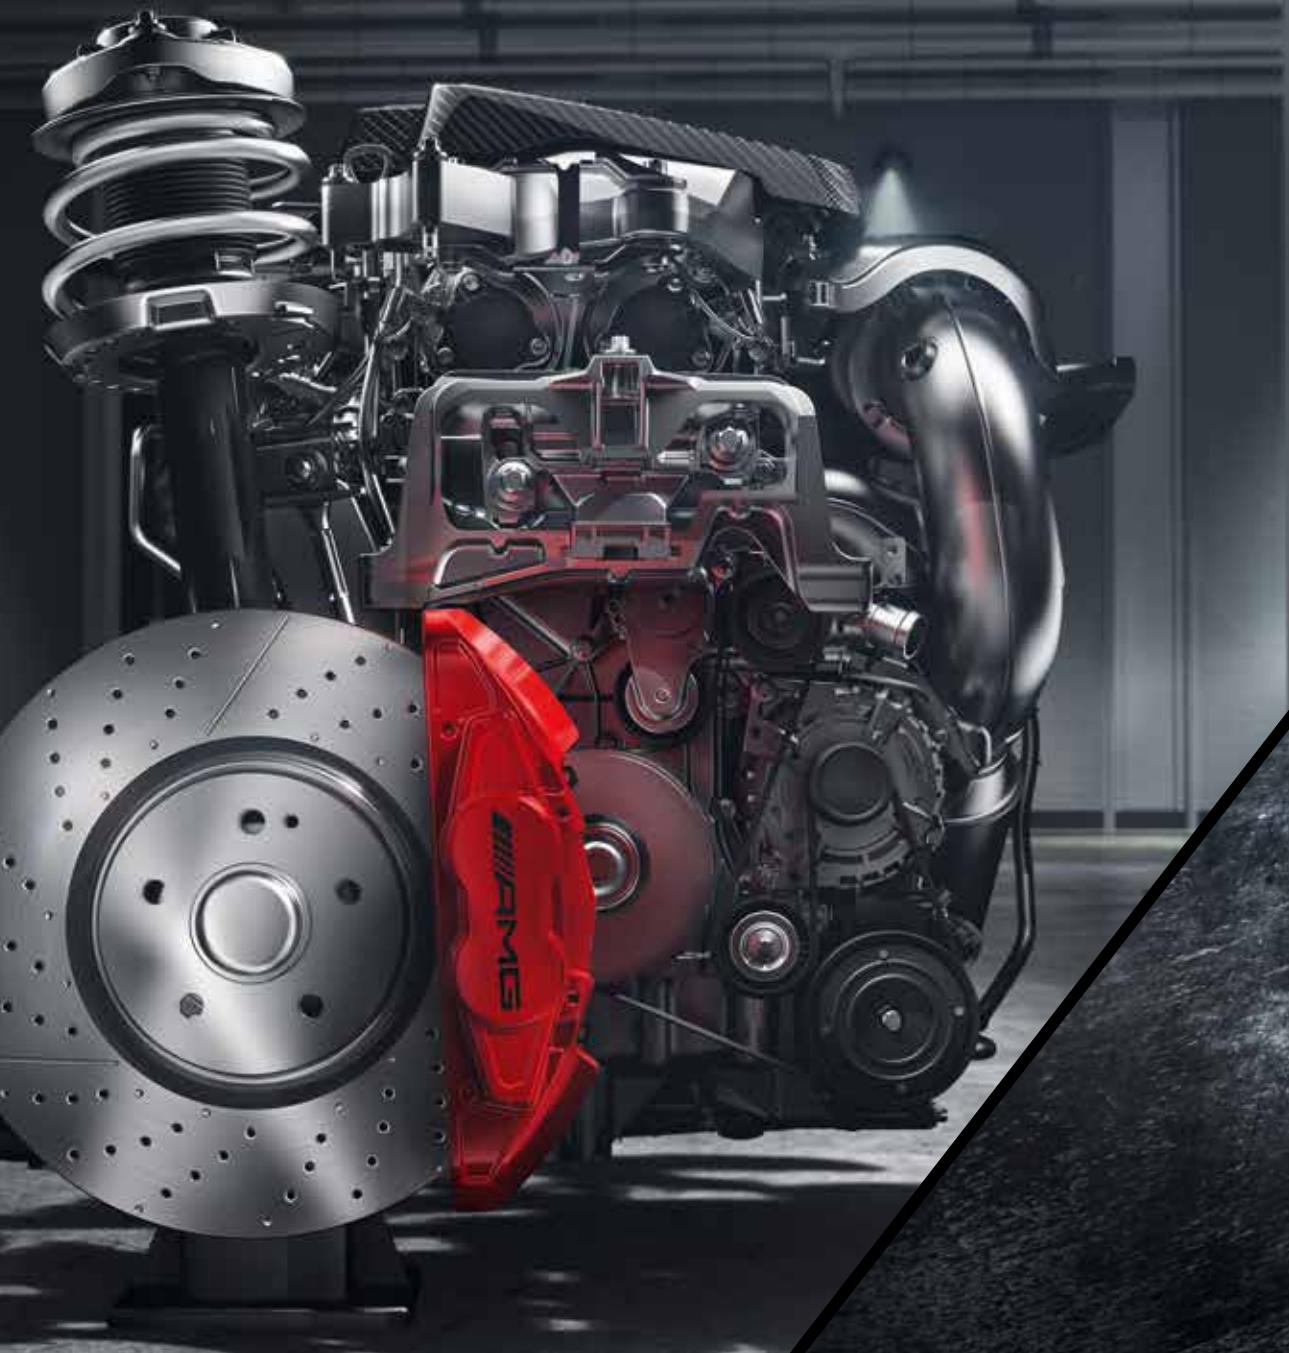

The technology. Revolutionised.

What do AMG drivers and AMG engineers have in common? They are petrol heads. As proved by the world's most powerful series-production 4-cylinder turbocharged engine, delivering 280 kW (381 hp). With an output per litre of 141 kW/l (191 hp/l) it out-performs even most super sports cars. A twin-scroll turbocharger ensures fast response and maximum agility. With up to 475 Nm of torque at your disposal to achieve this.

Meanwhile, the AMG Performance 4MATIC all-wheel drive system ensures that the potential is optimally distributed to all four wheels. The optional AMG DYNAMIC PLUS package with a manually controlled front axle limited-slip differential even manages to increase the traction. With the result that, ultimately, you may reach the limits of what is physically possible, but not of your driving enjoyment.

Passion grows when it is shared: the AMG Private Lounge is our community centred on the world of AMG. AMG customers can come here for a chance to attend top-class events and use our online platform to chat about the latest developments from Affalterbach. Doing so allows them to benefit from special offers and from the direct link to AMG's headquarters: www.mercedes-amg.com/private-lounge/welcome

The AMG Driving Academy stands for an incomparable team spirit: experience performance with like-minded individuals and improve your driving skills at racetrack and lifestyle events held at the most breathtaking locations around the world. Become part of the "World's Fastest Family": www.mercedes-amg.com/driving-academy

Still want more? Mercedes-AMG Motorsport offers the ideal platform for professional motorsport in the form of its Customer Racing Program – and with the Mercedes-AMG GT3, a racing car that has been specifically designed for the very purpose. A fully integrated service environment allows you to participate in motorsport at the highest level: www.mercedes-amg.com/customerracing

The AMG Performance Studio creates cars that are perfectly tailored to your wishes and desires. No limits are placed on the creativity of our experts, who demonstrate their unparalleled craftsmanship in areas as varied as special technical components, extravagant paint finishes and the most exclusive interior appointments imaginable, to produce one-off masterpieces.

Enter the world of AMG. Experience true driving performance.

We don't just build cars.
We make dreams come true.

Mercedes-Benz is one of the founding partners of the “Laureus Sport for Good Foundation”.

Since the foundation was established in 2000, Mercedes-Benz has been supporting and promoting the aims and values of this worldwide non-profit-making programme: to use social sports projects to improve the lives of children and young people who are disadvantaged or suffering from illness. Laureus has become a fundamental element of Mercedes-Benz's social responsibility. Every new Mercedes is an ambassador embodying these values. In buying a Mercedes you are supporting the “Laureus Sport for Good Foundation”.

Please note: changes may have been made to the product since going to press (04.07.2017). The manufacturer reserves the right during the delivery period to make changes to the design, form, colour or specification, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may include accessories and optional extras which do not form part of the standard specification. Actual colours may differ slightly from those shown owing to the limitations of the printing process. This brochure is distributed internationally. Information given regarding statutory regulations, legal requirements and taxation and the consequences thereof applies to the Federal Republic of Germany only and is correct at the time of going to print. For current and more specific information in relation to the range of models, features, optional extras, colours and/or services available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer.

Take-back of end-of-life vehicles. In due course you can return your CLA to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers is available to make returning your vehicle as easy as possible for you. You are welcome to return your vehicle to one of these establishments free of charge. In so doing, you will be making a valuable contribution towards closing the recycling loop and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
